Presented by University Hospitals Center for Clinical Research and Technology

Lee Ponsky, M.D. Chief, Division Urologic Oncology, and the Center for Clinical Research & Technology have organized a Clinical Technology Symposium that will be held at the Corporate College East on Saturday, September 26, 2009 from 7:30 am – 12:00 pm. The objective of the Symposium is the dissemination of medical technology across departments to facilitate innovation and improve patient care.

Speakers will provide brief presentations on a combination of established and new technologies used in their clinical medical practice at University Hospitals. Those in attendance will be provided with opportunities to ask questions and discuss the technologies to help identify new uses in their own practice, to create improvements to the technology, and to foster future collaborations.

Anyone interested in attending the symposium may contact Kristen Kovach, MBA in the Center for Clinical Research and Technology at 216-983-5160 or kristen.kovach@uhhospitals.org to RSVP. We look forward to seeing you there!
