

KIDS Rainbow

Session 3: April 25th 4:30–6:30PM

SESSION 3 KEY POINTS

- ✓ Advisors were introduced to Photovoice, a public health, community-based participatory research, where participants take photo and/or video images to capture their experience within their environments.
- ✓ Photovoice was designed to promote active participation and guidance to help teach and influence policy and decision-makers. This research method will enable advisors to share their perspectives, record and reflect on their experiences and their communities' conditions.
- ✓ A Kahoot Survey was done at the end of the meeting.

GOALS OF THE SESSION

- ✓ Highlighting Key Objectives/Top Priority needs
- ✓ Understanding Photovoice
- ✓ Discovering Health Visions of Youth

PRE-SESSION TO DO LIST

- ✓ Join Kids Rainbow GroupMe
