

TESTIMONIALS

To say good care is hard to find would be an understatement. But thanks to University Hospitals Homecare department we've had success in finding qualified and compassionate people to care for our needs. The caregivers sent to the house are punctual, dress and speak professionally and respect the dignity of the patient. This not only brings confidence and trust that he is in good hands but also relieves the family members to know that in their absence their father is well taken care of. We are full of gratitude for this resource and would highly recommend placing any care needs you have into their fully capable hands.

CLIENT AND SPOUSE

Your team has worked incredibly well over the years to provide my father with caring, trained professionals. My family is very fortunate to have the support of the UH team. Some of the UH caregivers who work with my dad have been with us for years. These caring and competent individuals have become a welcome part of the household. I can't stress enough how fortunate we are to have UH on our side, working to make sure my dad is safe and attended to 24 hours a day. Thank you.

Personal Care Services

Compassion,
Expertise,
and Quality Care...
every step of the way
while maintaining
a healthy home
and a healthy you

EXCEPTIONAL CARE MEANS EXCEPTIONAL VALUE ... and EXCEPTIONAL PEACE of MIND.

When you choose University Hospitals Home Care - Personal Care Services, you're choosing the integration of one of the most highly rated Home Care providers in the nation.

And when you think about it, that integration with the expertise and resources of the entire UH Health System makes all the difference in the insurance of quality care. Should you or your loved one need more complex care, our UH Home Care skilled nurses and therapists can seamlessly provide that higher level of attention. So you can relax, knowing that appropriate care is always ready and waiting. In fact, 97% of our patients report they are likely to recommend UH Home Care to friends and loved ones in need of high quality assistance at home. Our people definitely make the difference.

**Whether it's Respite Care
or Continuous Care...
because caregivers
deserve peace of mind
and help too.**
